

Tobacco Use in Baltic

Quarter 1 2019: January 1, 2019 to March 31, 2019

The South Dakota (SD) QuitLine offers FREE cessation services to tobacco users interested in quitting through two personalized services. The SD QuitLine Phone Program offers coaching and 8-weeks of cessation medication - nicotine replacement therapy (NRT) in the form of patches, gum, or lozenges, or the medication bupropion (Zyban). All SD tobacco users are eligible to enroll in services on a yearly basis as needed to quit. Tobacco users in a priority population group (highlighted below) can enroll every 3 months. Tobacco users can also enroll online (www.sdquitline.com) to receive a KickStart Kit - a 2-week supply of NRT (patch, gum, or lozenges) and a Quit Guide, available one time per year.

*May exceed the total respondent number as respondents could select more than one response. Number of smokers was calculated for the city of Baltic using the 2016 County Health Rankings data adult smoking rate (<http://www.countyhealthrankings.org/app/south-dakota/2018/measure/factors/9/map>) and US Census Bureau adult population data from the 2013-2017 American Community Survey 5-Year Estimates (https://factfinder.census.gov/faces/nav/jsf/pages/community_facts.xhtml#). Enrollment data was provided by the SD QuitLine service provider. This report was produced in the South Dakota State University Population Health Evaluation Center through a cooperative agreement with the SD Department of Health. Further information on tobacco use rates and SD QuitLine services can be obtained by contacting the Tobacco Control Program at 605-773-3737.
