Number of tobacco users was calculated using the 2011-2015 American Community Survey 5-year estimate available at <https://factfinder.census.gov/faces/tableservices/jsf/pages/productview.xhtml?src=CF> and 2011-2015 Behavioral Risk Factor Surveillance Survey combined cigarette and tobacco use rate of 25.1% provided by Ashley Miller, SD Chronic Disease Epidemiologist. Enrollment data was provided by the SD QuitLine service provider. This report was produced in the South Dakota State University Office of Nursing Research through a cooperative agreement with the SD Department of Health. Further information on tobacco use rates and SD QuitLine services can be obtained from the Tobacco Control Program at 605-773-3737.
